## **Encore Legal Solutions Recognized as Fast-Growing Provider of Electronic Discovery Services**

Percentage of law firms using Encore for e-Discovery services soars in past year according to Twelfth AmLaw Tech Survey

Phoenix, Ariz. (October 5, 2007) - Encore Legal Solutions, a leading national provider of electronic discovery and related services, has been listed as one of the fastest growing electronic data discovery services providers in the 2007 AmLaw Tech Survey. Of the 115 law firms responding to the survey, 18 percent listed Encore when asked, "What electronic evidence data discovery vendors does the firm use?" Encore's penetration of leading law firms increased by 700 basis points (a 64% increase for Encore) versus 2006 levels.

AmLaw Tech is the second survey in as many months to highlight Encore's rapid growth. The 2007 Socha-Gelbmann Electronic Discovery Survey ranked Encore as a "Top 10" overall service provider, an improvement over its "Top 20" ranking in 2006. "Our staff has worked very hard to establish Encore's position as a leader in electronic discovery services," said Gregory J. Mazares, Encore's President and CEO. "We are grateful for the opportunity to serve so many of the nation's leading law firms and corporate law departments."

Over the past year Encore has evolved from a traditional document management company into a premier provider of electronic data discovery, Web hosting, data forensics, and related services. The company has hired many experienced industry leaders and has built a solid technological infrastructure and increased its capacity to produce more work, faster, at value-based prices.

"We have made many improvements to enhance the quality of our services," added Mazares. "In addition to our proven technology, we employ some of the most experienced professionals in the industry. We look forward to continued growth for the balance of 2007 and beyond."

The 2007 AmLaw Tech survey appears in the September/October 2007 issue of Law Firm Inc. magazine. This twelfth annual edition surveys 130 leading law firms in the United States. The survey can be viewed online at <http://www.law.com/jsp/legaltechnology/pubArticleLTN.jsp?id=1189155760577>.
