

## **Encore Legal Solutions Enters Into Strategic Alliance with CaseLogistix**

Delivers Information Management Services and Software to Law Firms and Corporate Legal Departments

New York - January 29, 2007 - Encore Legal Solutions, a leading national provider of litigation support solutions, today announced that it has entered into a strategic alliance with CaseLogistix, Inc., a leading provider of evidence and litigation management software for the legal community.

Under the terms of the agreement, Encore will provide reprographics, imaging, coding, e-discovery, hosting and related services to CaseLogistix users, and will make available the sophisticated CaseLogistix litigation management software to Encore's law firm and corporate clients nationwide.

The CaseLogistix software, which is available as a desktop and Web version, or in an application service provider (ASP) hosted environment, allows legal teams to quickly collect, review and produce any amount of digital evidence using an interface similar to that of Microsoft Outlook. Its Microsoft SQL Server database backend provides unlimited flexibility and scalability based on the complexity of a given case.

"The CaseLogistix application will offer our clients a powerful, tier-one solution for electronic document organization, annotation, discovery management and publication," said Greg Mazares, president and chief executive officer of Encore. "This alliance extends our ability to serve our clients' growing demand for productivity and efficiency in managing electronic evidence throughout the litigation lifecycle, and at the same time we will contribute what we do best in delivering a variety of digital information management services to clients of CaseLogistix."

Encore will host CaseLogistix in a secure ASP "rich client" environment. This will give Encore clients the flexibility and power to employ the browser version of CaseLogistix, while remaining able to pull upon the substantial resources and experience of Encore's staff. This arrangement further provides Encore clients with the ability to move their data seamlessly and efficiently into CaseLogistix desktop, if and when the

need arises. Law firms and general counsel will have a start to finish litigation support package with the Encore-CaseLogistix strategic alliance.

“Encore is a top notch litigation support company whose capabilities and expertise nicely compliment CaseLogistix’s current offerings and extend our reach into new markets,” said Roe Frazer, CEO of CaseLogistix. “Our collective clients are intent on gaining a competitive edge through the litigation technology and services they choose. Our alliance with Encore will get them into the end zone.”
