

## **Doug Forrest**

### **Director, Northeast Region**

Doug Forrest joined Encore as the Director, Northeast Region, in August 2009, helping law firms and corporations to craft both firm-wide and matter-specific e-discovery solutions. He has worked at the heart of legal technology for over 25 years, starting as an attorney at Cravath, Swaine & Moore, where he used the first computerized litigation support system on the IBM antitrust cases. Since then he has designed case management, litigation support and document repository systems (including WIDE and LIT CaseWorks for Lotus Notes), SaaS knowledge management applications (including LexisNexis Total Alerts and LexisNexis Clipper) and e-discovery and production operation systems. He has served as Chief Technology Officer at Ozmosys, where he designed all of their KM services, and Vice President and Executive Director at LIT and then LIT/Special Counsel, where he provided law firms and their clients with a full array of litigation support services. Prior to joining Encore, he performed and managed e-discovery sales for Guidance Software's Professional Services Division. Mr. Forrest is a graduate of Stanford Law School.
